Inspection by Company is not a representation or acknowledgement by Company that the Work has been performed correctly and does not relieve Contractor of any obligations under this Agreement. If the Work or the Work Site fails any inspection, in whole or in part, as a result of Contractor's Work, Contractor will be responsible for correcting the deficiencies and will be responsible for paying all fines and re-inspection fees.
14. **CONTRACTOR WARRANTY.**

Contractor will warrant and guarantee Warranty Work for the longer of the expiration of the warranty period in Section 14, or 90 days from Company's acceptance of such Warranty Work. Company reserves the right to ascertain whether a Defect exists and whether warranty repair or replacement is required in its sole discretion.
- b. Company will give Contractor prompt written notice of any Warranty Work required whenever possible; however, notice may also be given verbally if necessary. Unless otherwise specified by Company, Contractor will contact the property owner within two business days, and begin Warranty Work within three business days, of being notified that such Work is required. Contractor will work diligently to complete such Warranty Work as promptly as possible, but in any event within ten days from the date that the Warranty Work began. If the Defect or Warranty Work results in damage to other materials, equipment, or work, as determined by Company in its sole discretion, Contractor will be responsible for the cost and expense to repair or replace same.
- c. If the Warranty Work is not satisfactorily completed by Contractor as set forth in (b) above, or if the Warranty Work is an emergency, as determined by Company in its sole discretion, Company will have the right to perform the Warranty Work itself or use another Person to perform the Warranty Work at Contractor's sole expense. Contractor agrees to promptly reimburse Company for any such expenses.

- 16. PRICE.** Contractor will furnish all Work required by this Agreement for the price specified in the PO for each project. Contractor will not be entitled to any increase in the prices set forth in the PO, even if Contractor's cost to perform the Work (including labor and materials), may increase during the term of this Agreement. Contractor acknowledges and agrees that, unless specifically stated otherwise in the PO, the prices set forth in any PO include: the cost of compliance with all applicable Laws; the cost of complying with the requirements of all Government Agencies having jurisdiction over the Work; all applicable sales and use taxes; and all state and local license fees, permits, and other fees of any kind or nature whatsoever related to the Work covered by the PO. If Contractor performs extra work or changes the Work without a Change Order signed by Company, Contractor will not be entitled to any payment or other compensation therefore.

- 17. PAYMENT.** Payment will be due under this Agreement when Contractor has complied with the Contractor Policies & Procedures. Contractor must invoice, and Company will make payment, in accordance with the Contractor Policies & Procedures. Company will not be obligated to make any payment to Contractor at any time when Contractor is not in compliance with the terms of this Agreement and the Contractor Policies & Procedures. Company may, at its option, issue joint checks in payment for the Work. No payments will be due under this Agreement until Contractor has signed an acceptable statement of satisfaction authorizing payment for the Work being invoiced and delivered a full and complete release of all liens for materials and labor furnished in connection with the Work. Company may also require an affidavit that, so far as Contractor is able to ascertain, no Person has a right to any such lien for materials or labor. If any lien remains outstanding after all payments are made, Contractor will refund to Company all monies that it may be compelled to pay in discharging and releasing such lien.

- a. No payment made to Contractor for any of the Work will be deemed as an acceptance by Company of any part of the Work, will be construed as a waiver by Company of later found Defects, or will release Contractor from its liability for Defects or Warranty Work.
- b. Company may reduce any payment for any costs that Company incurs or reasonably expects to incur as a result of Contractor's failure to comply with this Agreement or as a result of Contractor's failure to pay its Agents.
- c. Contractor will promptly and timely pay all of its Agents, including its employees. In addition to and not in substitution of the PO and Contractor Policies & Procedures, and as a condition precedent to any obligation of Company to make payments to Contractor under this Agreement, Contractor will, if requested by Company, furnish written evidence satisfactory to Company that (i) all claims or demands of Contractor and of its Agents have been paid, (ii) all wages, benefits, and sums withheld pursuant to applicable laws have been paid, and (iii) all other items and matters used by Contractor in its performance of this Agreement have been paid for. Such written evidence will be furnished on such forms and in such a manner as may be reasonably requested by Company and all statements made by Contractor relative thereto will be made by affidavit or under penalty of perjury. Company may, on

Contractor's behalf, pay and satisfy any Agent furnishing labor or materials to Contractor in the performance of the Work, including any Person who may have a cause of action against any surety of Company or lien rights against the Work Site or any part thereof. Such payment, in Company's sole discretion, may be made directly to any Agent or jointly to Contractor and such Agent. Direct payment may at Company's option include Contractor's payroll obligations incurred. Contractor will indemnify and hold Company harmless from all claims by any of its Agents relating to any Work, including claims of non-payment. Nothing contained in this section specifically, or in this Agreement generally, will be construed to be for the benefit of any Person not a party to this Agreement, and no third-party beneficiary rights are created hereby.

18. **TRADE SECRETS.** As used in this Agreement, the term "Trade Secrets" will be broadly interpreted to include all information relating to Company's operations, services, clients or potential clients, and any information which gives Company a business advantage over its competitors. Contractor agrees that all Trade Secrets are and will remain the sole and exclusive property of Company, whether or not Contractor participated in the development or acquisition of same. Contractor agrees that it and its Agents (i) will maintain the Trade Secrets in the strictest confidence and not disclose any Trade Secret to any Person, and (ii) will not use any Trade Secrets for any purpose other than for the performance of the Work, and specifically not for its own benefit or the benefit of any Person other than Company, and (iii) will return all Trade Secrets, including all copies thereof, to Company upon request or upon termination of this Agreement. Contractor will take all steps necessary to ensure that its Agents understand and comply with the requirements of this section. Nothing contained herein will limit the right of either party to declare the other party in default under this Agreement or to seek monetary damages in addition to such injunctive relief.
19. **NONSOLICITATION.** CONTRACTOR HEREBY AGREES THAT DURING THE TERM OF THIS AGREEMENT AND FOR TWO YEARS AFTER TERMINATION HEREOF FOR ANY REASON, CONTRACTOR WILL NOT (I) RECRUIT, SOLICIT OR PERFORM ANY WORK FOR, OR RECEIVE ANY COMPENSATION FROM, ANY PERSON FOR WHOM CONTRACTOR PERFORMED SERVICES OR PROVIDED PRODUCT DURING THE TERM OF THIS AGREEMENT, (II) INDUCE OR ATTEMPT TO INDUCE ANY CUSTOMER, SUPPLIER, OR OTHER BUSINESS RELATION OF COMPANY TO CEASE DOING BUSINESS WITH COMPANY, (III) INTERFERE IN ANY WAY WITH THE RELATIONSHIP BETWEEN ANY CUSTOMER OR BUSINESS RELATION AND COMPANY, OR (IV) SOLICIT OR ATTEMPT TO SOLICIT ANY OF COMPANY'S EMPLOYEES TO TERMINATE THEIR EMPLOYMENT WITH COMPANY OR ACCEPT EMPLOYMENT WITH ANOTHER PERSON.

Contractor's duty to indemnify, defend and hold harmless hereunder will apply to any act or omission, willful misconduct, or negligent conduct on the part of Contractor, any of its Agents, employees, or any person for whom Contractor may be liable.
 - ii. The indemnification obligations of Contractor under this Agreement will NOT be limited by the amounts or types of insurance (or the deductible or self insured retention amounts of such insurance), which Contractor is required to carry under this Agreement. - iv. Contractor's liability for indemnification and defense hereunder is in addition to any liability Contractor may have to the Indemnified Parties for a breach by Contractor of any of the provisions of this Agreement. The indemnification obligation will not be construed to negate, abridge, or otherwise reduce any other right or obligation of indemnity that exists as to any Indemnified Party. The provisions of this section will not apply to any claims that arise out of the sole gross negligence or willful misconduct of the Indemnified Parties.
- v. Contractor will reimburse Company for any Claims or losses incurred by Company within five (5) business days of notification from Company. Company may deduct payments made from any monies due or to become due to Contractor pursuant to this Agreement or any other agreement with Company. Company may withhold from any monies due to Contractor such sums as Company will deem reasonably necessary to protect Company from any Claims under this section.
- vi. Contractor and Company acknowledge that during its performance of this Agreement, Contractor may also be under contract with Company or its affiliate for work at other projects. At Company's sole election, a breach in the performance of Contractor's obligation under any other agreement with Company, or Company's affiliate, will constitute a breach by Contractor under this Agreement.

23. MISCELLANEOUS

WARRANTY WORK

1. All warranty work initiated under the Abbotts Fire & Flood contract and performed by a contractor must be accompanied by a PO.

Work Site Policies and Conduct Requirements

Abbotts Fire and Flood believes that its employees and contractors are valuable contributors to a dynamic business whose continued success depends on the legal and ethical behavior of its employees and agents. As such, employees and contractors have a responsibility to act with honesty and integrity. Each employee and contractor must accept personal accountability for his or her behavior and compliance with applicable policies.

The principles reflected in this document set the minimum standards by which employees and contractors must conduct their professional lives. At their core is an unwavering commitment to the customer, compliance with all applicable laws and respect for your colleagues and others with whom we deal in our business. While we compete vigorously, we must do so within the scope of these policies and requirements.

Ethics and integrity questions can be complex. These guidelines cannot address every workplace situation. Sometimes, a law or policy clearly dictates the outcome. More often, a situation will require interpretation to decide a fair and reasonable course of action. When faced with a decision, ask yourself these basic questions about the situation:

- What feels right or wrong about the situation or action?
- Is your action consistent with Abbotts Guiding Principles, policy and guidelines, and applicable law?
- How might your decision or course of action affect others – customers, suppliers, contractors, partners, competitors, the community, other employees, the Company?
- How might your decision or course of action appear to others? An innocent action can result in the appearance of wrongdoing.
- Have you fully explored the consequences of your decision?
- Would additional advice be helpful? Your supervisor knows you and your job and is usually in the best position to help. If you believe your supervisor is not able to resolve your question or problem, contact Human Resources.

No code of conduct or statement of policy can cover all circumstances or anticipate every situation. Consequently, employees and contractors encountering situations not addressed specifically by Company policies should apply their following Guiding Principles to the situation, along with their own personal integrity and the highest ethical standards observed by honorable people.

Our Guiding Principles

1. Put People First.

Our commitment is to put people first. People are at the heart of our organization: Customers, Employees, Contractors, and Vendors. A family owned and operated company, we embody old-fashioned, small-town family values - when your word was your bond and a handshake was as good as a contract. We ensure an equilibrium and balanced approach for all stakeholders. We understand what customers are going through. Customers are at the heart of what we do. We guide them through the process always leaving them better off

than we found them. In times of chaos we prevent disaster from becoming tragedy. By communicating the purpose and meaning of our work, we provide trust, stability, compassion, and hope.

2. Always Do Our Best.

We strive for excellence in who we are and all that we do. We serve our customers and support our community by restoring damaged property through quality service. We take pride in quality people, quality workmanship, and quality materials. With the latest training and current technology, our craftsmen are able to do their work effectively and efficiently. We strive to ensure a positive customer experience while meeting deadlines, reducing waste, and holding costs down.

We realize that we can do anything but we can't do everything and do it well so we focus our attention. We know that our best is going to change from moment to moment. Under any circumstance, we simply do our best. We avoid self-judgment, self-abuse, and regret. If we make a mistake, we own it. We avoid casting blame. We foster a positive, strengths-based workplace with a family spirit. We strive to create a learning organization, an environment that fosters the pursuit of growth and learning that brings out the best in everyone.

3. Teamwork and Collaboration Rule.

We rely on each other to get work done. Team members are positioned so that each can do what he/she does best. We recognized that we are a group of imperfect but talented contributors who are valued for their strengths and who need one another to realize individual and team excellence. We seek to understand the needs of our internal customers so that we can meet and exceed those expectations. We focus on priorities, generate unity, work smarter (not harder) all while having fun. We embrace a climate of trust, stability, compassion and hope. We are empowered do what is necessary to make our teams successful. We provide the tools, resources, and environment to be successful.

4. Be Impeccable with Your Word.

Integrity is doing the right thing when no one is looking. We speak and act with integrity. We lead by example, say what we mean and mean what we say. We follow through on commitments. We avoid speak against ourselves gossiping about others. We use the power of our words in the direction of truth and love. We recognize that we are all human and make mistakes. We build each other up. Honoring our humanity, we hold each other gently accountable.

5. Don't Take Anything Personally.

People need one another. We believe that people are fundamentally good and want to do good work. Nothing others do is because of you. What others say and do is a projection of their own reality, their own dream. When you are immune to the opinions and actions of others, you won't be the victim of needless suffering.

6. Don't Make Assumptions.

We lead with positive intent. We understand that differences are advantages but the differences - in personalities, values, approaches - may lead to misunderstandings. We give each other grace, the benefit of the doubt. We find the courage to ask questions and to express what we really want. We communicate with others as clearly as we can to avoid misunderstandings, sadness and drama. We do not avoid difficult conversations or engage in passive-aggressive behavior. We create a climate of trust and seek first to understand.

7. Great just isn't good enough.

Our ability to succeed depends on our ability to focus on the “vital few” instead of the “trivial many”. We leverage process standardization, process automation and technology to work smarter not harder. With a relentless focus on the customer, we innovate and automate to improve the customer experience and reduce waste. We realize that the more we can automate laborious, routine tasks, the more time we will be able to spend working on the “vital few” that are truly meaningful and add value - to the customer, to our team and to our lives.

Work Site Safety

Abbotts Fire & Flood is committed to providing safe and healthy workplace setting to prevent accidents and injury to health. Most accidents and injuries are preventable. It is the policy of Abbotts Fire & Flood to ensure contractors are conducting their business in a manner which promotes a safe and healthful work environment. In addition to requiring that each contractor carry necessary insurance for their trade, contractors shall adopt responsible measures to identify, mitigate and remedy health and safety risks expediently. Specifically:

- Ensure employees and contractors are appropriately trained for the work they are performing and are supervised.
- Hold regular safety meetings.
- Supply safety equipment required for the trade being performed.
- Furnish fall protection at 6 feet for all trades and craftsman.
- Comply immediately with safety directives given by Abbotts Fire & Flood, OSHA or any state/municipal agency.

Work Environment Free from Harassment

Our people are our most important asset. We expect all employees and contractors to treat their colleagues with respect and to observe the highest standards of collegiality. Abbotts Fire & Flood will not tolerate any form of harassment against any employee or contractor. All employees and contractors must avoid any behavior or conduct that could reasonably be interpreted as harassment.

Professionalism is Paramount

The Company's reputation for integrity is tested every day by the way you treat the people with whom you do business. Honesty, fairness and keeping commitments must be hallmarks of the way you do business. Employees and contractors must maintain a visual identity that represents professionalism. Clothes must be neat, clean and reflect professionalism. Additionally, employees and contractors should exhibit a courteous,

conscientious, and generally businesslike manner including protecting furniture and floors, securing the worksite, and maintaining a clean worksite.

Abbotts Fire and Flood is committed to drug-free workplace and tobacco free work environment. Employees and contractors agree to keep illegal drugs, alcohol and weapons away from the workplace. Abbott's Fire & Flood prohibits the use, possession, distribution, selling or manufacturing of any illegal drugs or any alcohol or any illicit or improper use of prescribed drugs on Company property or on the job (including in Company vehicles) or, except as otherwise authorized by law, the possession of any dangerous weapon or firearm on Company property or on the job (including in Company vehicles). Employees may not be under the influence of either drugs or alcohol while on Company property or while conducting Company business. Moderate use of alcohol served at official Company functions or while on Company business conducted on or off Company property is acceptable if reasonable under the circumstances, and provided that the employee complies with legal driving and other guidelines and laws.

Abbotts Fire & Flood expects its employees and contractors to refrain from using inappropriate language when communicating with others. Inappropriate language includes unwanted, deliberate, repeated, unsolicited profanity, cussing, swearing, and vulgar, insulting, abusive or crude language. Threats, threatening and abusive behavior, or acts of violence (verbal or physical) against employees, customers or other individuals or against Company property by anyone on Company premises or while on Company business will not be tolerated.

Compliance with the Law

Abbott's Fire & Flood strives to be an honorable company and employer. Employees, contractors and agents must always operate within the law in all business dealings. Employees and contractors have a personal responsibility to become familiar and comply with the laws and regulations related to their job responsibilities.

Reporting Complaints

The Company will take necessary steps to stop unlawful or unethical behavior and will take appropriate disciplinary action (up to and including termination) against those who violate Company policies and/or (even if such violations do not constitute a violation of law) or for such other reasons as the Company deems appropriate, including taking action against individuals responsible for the failure to reasonably detect a violation or to supervise employees in the fulfillment of their responsibilities in a manner consistent with this Code and other Company policies. All employees are expected to cooperate fully in any investigation of a complaint under this Code or related Company policies.

If an employee or contractor becomes aware of a breach or violation of, or otherwise seeks to register a complaint or concern related to Company policy or applicable law he or she should report the breach, violation, complaint or concern by contacting Human Resources.
